

RFP 23-104
Firewall Appliance and Support
E-rate YR 2023 (YR26)

Erate Year 2023 Questions- Answers

- In the RFP document (Page 18 - table), LIC-ENT-5YR are listed as requested licenses. These are, however, licenses for Meraki APs. Can you confirm that actual MX67 5Y Enterprise Licenses, LIC-MX67-ENT-5YR, are needed?

Yes, the MX67W requires a cloud license to be managed.

- Is any compatible SFP module needed as well? In case it is, please advise if it is Single-mode or Multimode, what is the desired wavelength and what is the distance to a connecting device.

No, SFPs are not needed on the MX67W.
